

ASCEND PANEL

ABOUT THE CLIMBING PANELS

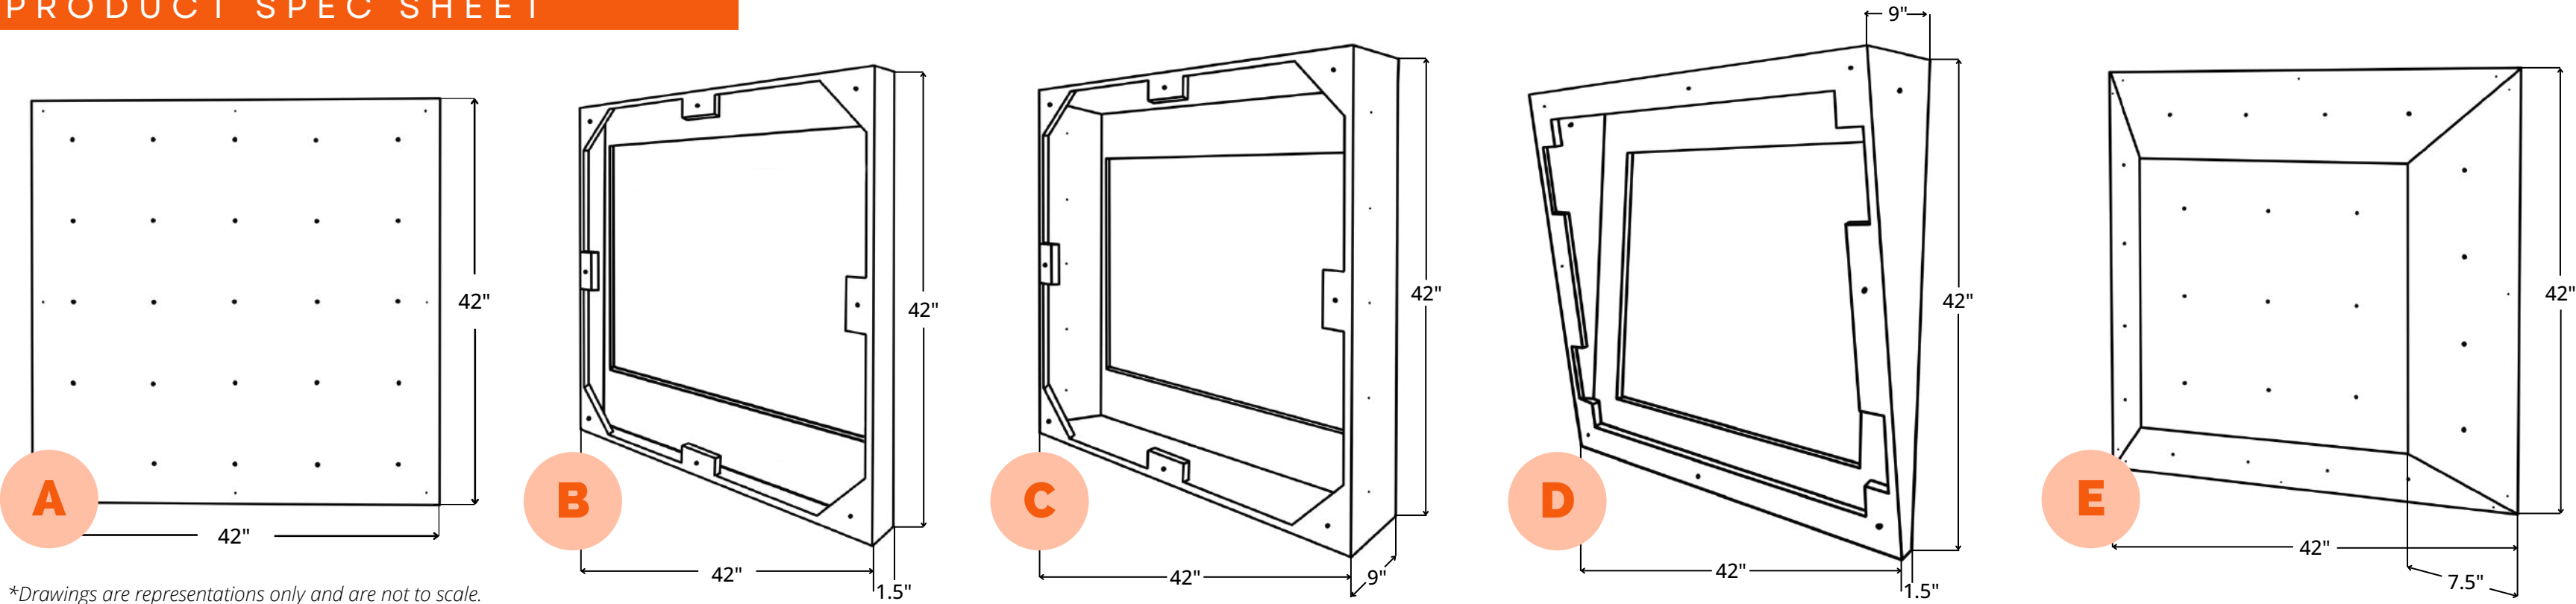

Panels feature 3/4" engineered plywood, 2 steel, zinc-plated handhold attachment points per square foot, a sleek planar profile, robust and impact resistant material for durability, and a textured, anti-rotation surface to prevent handholds from spinning.

Hardware included to attach the panel to the frame. Mounting fasteners to secure frame to wall NOT INCLUDED.
See [Installation Guide](#) for more information about the recommended fasteners for your wall type.

Ascend Panels and DIY-friendly Frames can be installed in the configuration of your choice!
