How to build The Midi

Mustard lockers are beautifully designed to make putting them together simple + argument free! No tears + no allen keys! All you need to get started is a **phillips head screwdriver!**

We've made a video taking you through the build step by step. Watch it here: mustardmade.com/build-it. It's easy, you got this!

We recommend you attach the locker to the wall to prevent tipping + causing injury. Use the extra screws + plugs to screw through the two holes in the back panel (as required for your wall).

- 16 x brackets
- 2 x posts
- 2 x large washers
- 2 x L shape posts
- 4 x screws
- 4 x small washers
- 2 x handles
- 2 x sets of keys (attached to door)
- 2 x keyrings

1

Stand both legs up + push the side panels down onto the legs.

TIP: make sure the legs face the right way!

4

Fold down the tabs on the four corners of the back panels.

7

Check from all angles that the side + back panels are slotted in correctly.

Click the top into place.

10

Slide the door down onto the post.

At the top of the door, insert the L shape post up into position through the holes. Bend the tab up.

2

Slide the middle frame onto the legs.

TIP: the slots go at the top!

5

Add the bases, starting at the front. Push the bases down into place.

8

Add the brackets + place the shelves on top. Use the round holes to help you measure the height.

11

Add the second door.

Grab your screwdriver!

Use your screwdriver to attach the handles with the small screws + small washers.

3

Push the back panels into place, starting at the bottom.

6

Add the top panel starting at the front. (You might need an extra pair of hands for this bit!)

TIP: the top should sit in the slot in the middle frame.

9

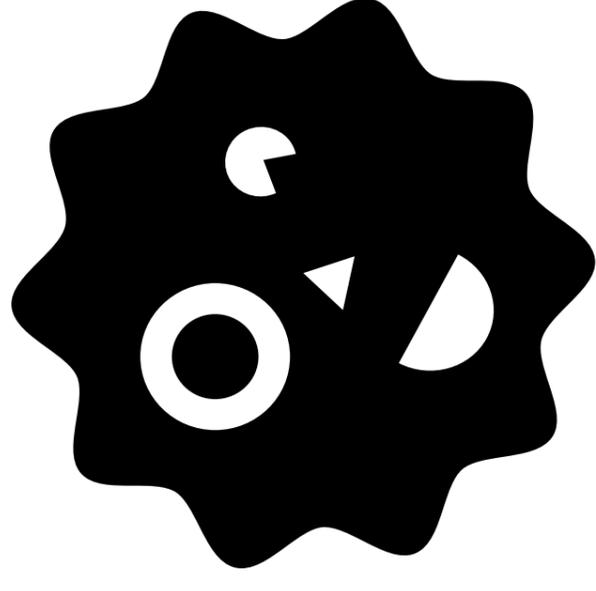

Insert the post + large washer in the hole in the leg.

12

Ta Da! She's all done!
Find someone to give you a high five (it's a little awkward doing it alone!)

P.S. pop the spare keys in a safe spot just in case!

**you got
this!**
