How to build The Standard

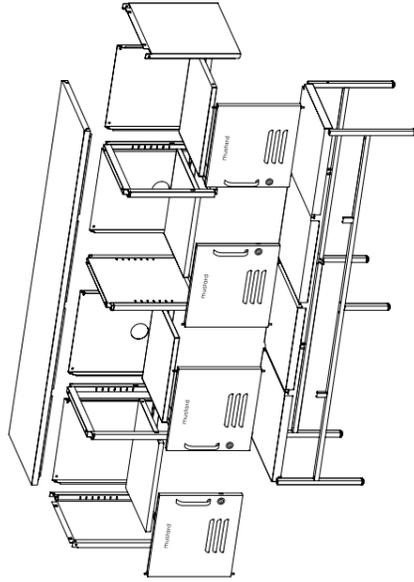

We've designed our lockers to be beautifully simple to put together. All you need is one crosshead screwdriver for the handles, and the rest just slots into place!

Watch our helpful how-to videos where we take you through the build step by step.

Learn more about securely attaching the product to the wall using the correct fittings (not provided).

-  12x brackets
-  4x posts
-  4x large washers
-  4x L shape posts
-  8x screws
-  4x handles
-  4x sets of keys (attached to door)
-  4x keyrings

1 Slot the central divide into the notches on the leg frames.
TIP: make sure the legs face the right way!

2 Push the side panels onto the legs. Slide the middle frames onto the legs.
TIP: the slots go at the top!

3 Push the back panels into place, starting at the bottom.

4 Fold down the tabs on the corners of the back panels.

5 Add the bases, starting at the front. Push the bases down into place.

6 Add the top panel starting at the front. (You will need an extra pair of hands for this bit!)

TIP: the top should sit in the slot in the middle frame.

7 Check from all angles that the side + back panels are slotted in correctly. Click the top into place. Take your time. You may need to pull the top panel into the right spot.

8 Add the brackets + place the shelves on top.

9 Insert the post + large washer in the hole in the leg.

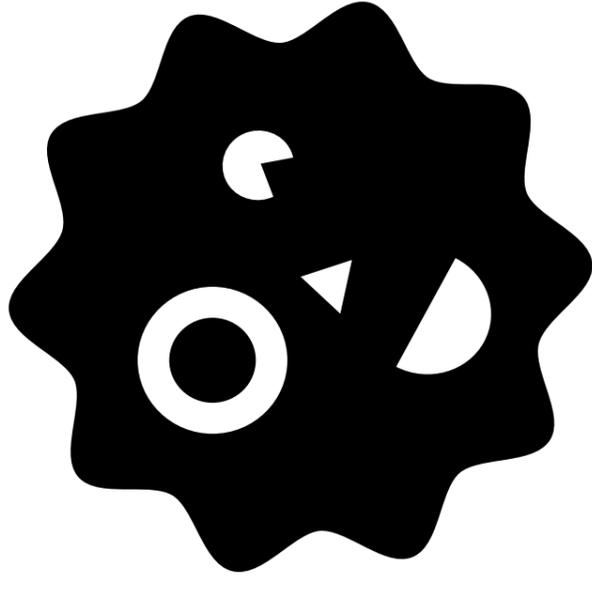

10 Slide door onto the post. At the top of the door, insert the L shape post up into position through the holes.
① Push the tab up to hold the door in place.
Add the other three doors.

11 Grab your screwdriver! Use your screwdriver to attach the handles with the small screws + small washers.

12 Now that's how you set The Standard! You're seriously impressive!

P.S. Pop the spare keys in a safe spot just in case!

you got this!
